Installation Guide for Tlingit Keyboard on Windows

Please note: for UAS-built Windows 11 machines, please use the <u>Software Center</u> to install the keyboard.

- 1. Access the Tlingit keyboard at https://tlingitlanguage.com/resources/apps-and-keyboards/.
- 2. Under Windows Keyboards, click the Tlingit Keyboard link.

Apps and Keyboards		Search
Mac Keyboards	Archives	
Crippen Tlingit Keyboard (Mac) place files in Macintosh HD/Library/Keyboard Layouts. Open "System	Meta = Log in	
Preferences" and then "Keyboard." Select the "Input Sources" tab and press the + sign. In the "Others" category you should see the Tlingit keyboard as an option.		
Windows Keyboards		

3. Download the "Tlingit_keyboard.zip" file.

8. On the "Windows protected your PC" popup message, click more info.

11066 Auke Lake Way Juneau, Alaska 99801 Tel: (907) 796-6400 Toll Free: 1-877-465-6400 uas.alaska.edu

9. Select the run anyway option.

- 10. When a popup asks, "Do you want to allow this app from an unknown publisher to make changes to your device?" select yes.
 - a. If this popup does not appear, look for a blinking shield icon on your taskbar. Click the shield and the popup should appear.

11066 Auke Lake Way Juneau, Alaska 99801 Tel: (907) 796-6400 Toll Free: 1-877-465-6400 uas.alaska.edu

11. Close the "Installation Complete" popup. Restart your computer.

12. Once your computer is restarted, a button should appear on right side of the bottom bar.

Clicking this button brings up the keyboard options. The Tlingit keyboard can be selected here.

- 13. If the button from step 13 does not work, the keyboard can be changed by the following steps:
 - Type "keyboards" into the windows search bar located at the bottom of your screen.
 Select "Edit language and keyboard options"

b. Select the keyboard button.

Settings		
û Home	Language	
Find a setting	旦	
Time & Language	Windows display English (United States)	Apps & websites English (United States)
🗟 Date & time		Q
👰 Region	Keyboard English (United States)	Speech English (United States)
⊿ [≇] Language		

c. The Tlingit keyboard should be an option in the drop-down menu.

Override for default input method

If you want to use an input method that's different than the first one in your language list, choose it here
